Double wall	7 oz, 8 oz, 12 oz
Ice cream cups	50 ml, 100 ml
Constructions	Plain, printed, ripple, double wall

PERFORMANCE ON YOUR LINE

- High bond strength — PE holds through forming and sealing without delaminating at rim or seam.
- Accurate width and thickness — consistent slitting and caliper keep web tension even at speed.
- Smooth feeding, minimal rejection — fans die-cut to accurate dimensions for long, clean runs.
- Strong bottom sealing — bottom reels made for high-speed compatibility and a sealed base.
- Made to order — GSM, coating weight, 1 PE or 2 PE and reel width set by your machine.

Send us your GSM, reel width and destination port
